## THREE ONE ACT PLAYS

"Don't miss it". This, reputedly was the advice of the late Wilson Mizner concerning a certain Broadway Play. Our advice concerning "Theatre Party" nights, Dec. 11 and Dec. 12 is "Don't miss it." Your theatre group has been improving to the point where many of you have been kind enough to say their efforts are more professional than amateur. Your support is vital - and, you will find it refreshing once or twice a year to be entertained by performers who appear in all three dimensions. Tickets are only sixty cents and will be available shortly.

Bring your friends and neighbors one night - and supply your baby sitters with tickets to bring their party the other night. We need your physical presence, as well as your sixty cents.

One of the plays will have as the principals, Pat Hughes of the Mailing Room, and Doug Clareus of Electronics: Stage mag., Gerard (Jerry) Hynes of Electronics, and the director, Fran Keene of the Physics Dept.

Another play will be rendered by a cast comprising Ed Sayre, Chemistry, Virginia Sayre, Director's Office, Margaret Carter, Physics Dept., Bob King, Biology, Virginia Hogan, Chemistry, and Murrey Goldberg, Physics Dept. The stage mgr. is Ann Wolfgang of Chemistry, and the director, Marilyn (Lyn) Stafne of the Physics Dept.

Don't leave yet - there's another one, with a cast of distinction, to wit: Marshall Bull of Photography, Aud-dey Agnew of Biology, Dan Tosteson of Medical, Joe Fleck of Nuclear Engineering and Don Fluke of Biology; Stage manager and scene designer, Mary Jane Sears, of Tech. Info; Costumes, Sylvia Stein of Biology; and as director, Ken Sancier, Chemistry.

There will be more information about the plays at a later date - but you can see it will be a big evening.

WANTED: To borrow some props for one of the one-act plays to be presented on Theatre Party Nights (Dec. 11 and Dec. 12).

Item 1. One pair silver or gold slippers (child's) size 6 or 6 1/2 - narrow to "B" width.

Item 2. One beat-up doll with battered wig.

Item 3. One Kite-red. (Perhaps some kind fellow would build one?)

Please Call Fran Keene Ext. 2245.

## NAVAL UNIT MEETING

Dr. William Robinson of the Chemistry department will give a talk entitled "Ancient History of Atomic Bomb Tests". The film "Operation Crossroads" on this same test will also be shown.

All members of BNL and their families are invited to attend. This will take place Wednesday Nov. 19, at 7:30 PM in the Research Staff Lounge.

Meeting sponsored by the volunteer Naval Research Reserve Unit 3-90.
